

5 Side Hustle Ideas You Can Start This Week

No MBA needed. Low-cost, beginner-friendly, and runnable from your laptop — starting today.

1

Sell Digital Templates on Etsy

Canva or Notion templates sell 24/7 with zero inventory. Start with one niche: planners, resumes, or social media kits.

2

Freelance Social Media Management

Small businesses need content but hate making it. Offer 3 posts/week for a flat monthly fee — start with one client.

3

AI Prompt Packs

Package 20-50 niche-specific prompts and sell them on Gumroad or Stan Store. Low effort, high perceived value.

4

Faceless Content + Affiliate Links

Create educational short-form content in a niche you know. Add affiliate links in bio. No face, no office needed.

5

1-on-1 Niche Coaching

You know something someone else doesn't. Offer a single 45-min session for \$30-\$75. That's your first client.
